### Osteopathy Recognized.

He who is so biased as not to investigate Osteopathy, should carefully read the following:

#### Osteopaths Get World's Fair Day.

"The science of Osteopathy is to be duly honored by the managers of the great St. Louis World's Fair. The management has already announced that July 7th, next year, is to be 'Osteopathy Day,' and it will be so printed on the official program."

The St. Louis Post-Dispatch in commenting on this matter stated "that no manipulation was required in getting the Osteopaths a World's Fair day."

Give Osteopathy a chance at your ailments and eight chances to ten you will get benefits when all other treatments have failed.

You need not have faith in the treatment to be benefitted, for results come by the treatment, and not through your faith.

So let us lay aside our prejudices and investigate, and to that is good hold fast, and that is of no benefit lay aside.

Remember only those who are afflicted suffer by non-investigation and not Osteopathy. Respectfully,  
A. A. SPEEGLE, D. O.

### VALUE OF ALASKA DECISION

Our Counsel Thinks It Will Make Impossible Future Disturbances.

Chandler P. Anderson, the counsel to the American commissioners at the Alaska boundary tribunal, returned recently to New York on the steamship New York of the American line. The first news he had of the decision was that received by Marconi wireless telegraph when the ship was passing Nantucket late the other night.

He expressed his pleasure at the decision and said to a reporter of the New York Times: "I have not yet read the decision through, but from what I hear it has been a great victory for America. The two islands which we receive amount to little because they are not settled."

"The real value of the decision lies in the fact that disturbances which naturally would have come between this country and Canada under the old conditions are now impossible, and the way is now open to settle the differences which this country and Canada may have in the future. The questions which have been unsettled can now be looked into. All other matters were set aside when the boundary dispute arose, and by its settlement by arbitration the fact has been proved that we need never look to any other means of settling disputes."

"I think that the settling of this matter as it has been settled has increased the feeling on both sides and that it will make the two governments more friendly. The next step in the matter will be the sending of experts to survey the country and map out the exact boundary."

"There was no dissatisfaction shown by the English people up to the time I left. In fact, I can say that there was less interest taken by the people in the matter than I have ever seen in one so great."

### MRS. FISH ON SOCIETY.

Society Woman Says There Is Too Much Silliness and Snobbery.

Still talking on the theories she exploited during her western trip, Mrs. Stuyvesant Fish, who recently returned to New York, repeated her views on the errors of society and the "ridiculous Four Hundred" in particular, says the New York Press.

"Social position is no longer a matter of dollars and cents," said Mrs. Fish. "By that I mean a position in good, solid society, not the tawdry imitations, the fringe, you know. I am disgusted with this new fad—conservatism. That is aggravated snobbery. I believe men of mental ability—thinkers, artists and that class—should be admitted to our best drawing rooms. Nothing would enliven the present day dullness as would the presence of brilliant men and women. I am a New Yorker bred and born, and I think this city is making feeble headway. Washington will eventually be our social center, because society there teems with brains, and here it teems with silliness. Chicago is improving, and I found that a most delightful city. Really that western city will soon outstrip us in the matter of population unless we are careful."

At the mention of the Four Hundred Mrs. Fish lifted a warning finger. "Not that phrase, please—the ridiculous Four Hundred. Indeed, it means nothing. Why, the phrase bespeaks snobbery. The original Four Hundred passed years ago."

### The Rejuvenated Mississippi.

One of the signs of the times is the revival of river traffic on the Mississippi. There has not been enough tonnage on the river this last season to take care of the freight traffic between St. Louis and the upper part of the river, and for the first time in many years through boats were run from St. Louis to New Orleans. Passenger traffic has revived greatly, and building of some very luxurious packet boats is contemplated. For the months of March, April and May last spring the amount of freight shipped from St. Louis by river was 102,000 tons, an increase of 70 per cent over the corresponding months of the preceding year.

### Adviser to King of Siam.

Edward H. Strobel, who has been appointed confidential adviser to the king of Siam, will soon leave for his new post of duty. He was formerly third assistant secretary of state and was minister to Ecuador and Chile. Since that time he has been professor of international law at Harvard college. He is the first American who has been named for the position he has accepted.

### The Latest Street Craze.

The latest craze in New York is the shoestring watch fob. Since it invaded the Empire City, only a few weeks ago, it has caused the sale of about 1,000,000 shoestrings. And still the demand exceeds the supply. The fobs do not come ready made. You make them yourself by braiding together two shoestrings, which ought to be of sharply contrasting colors.

### Advance of Education in Mexico.

The peon child of Mexico may now pass from his letters to the highest diploma entirely at government expense, and the government hopes shortly to make education compulsory.
